CHANNEL SEVEN'S RENOVATION COMPETITION SERIES

Congratulations to Liam from Outback Chippy for winning Dream Home, Channel Seven's latest renovation competition series. Liam has been a wonderful customer of ours for several years, and we are delighted that as part of his dream home vision, he chose to use Delta Panels.

When asked about his experience, Liam told us "Channel 7's Dream Home was life changing! I joined the show with my brother as it was a once in a lifetime opportunity I couldn't pass up, a chance to renovate my family home and also have the possibility to win some money for my brother was a no-brainer, the show has set us up for life!

My brother and I made it to the top 3 contestants, to compete for the best backyard for a chance to win the 100k winnings. It was a gruelling week and we had to work around so many different layouts to avoid existing sewers throughout the yard. I personally have used Delta Panels on many of my projects throughout my career, so I was so excited when I got the chance to use them for my Dream Home.

Originally the builder had planned for a standard rafter style roof design for the outdoor entertainer area, but with my experience with Delta Panels, I knew I could level up this area with a insulated roof panel, making it the perfect entertaining area for QLD heat.

This was something the judges really liked, not only understanding the QLD heat and the benefits from an insulated panel, but the pitch we were able to achieve allowed us to match the internal raked ceiling. The panel coming pre-finished saved us so much time and money due to the easy installation and overall finish, we completed the alfresco in 2 days, which is incredible. If you missed the show, my brother Rhys and I did in fact WIN the BEST backyard!

I highly recommend Delta Panels, I not only recommend them to my clients for their homes, I use them on my own property when I had the opportunity to choose anything."

We are grateful and delighted for being given the opportunity to provide Liam and his family with a piece of their forever home. Well done Liam and Rhys!

DELTA GOLF DAY

With perfect weather and a superbly presented golf course Delta Panels Annual Golf Day at the Brisbane Golf Club was a great success. We were delighted that around 100 customers and suppliers were able to join us. There were lots of stories about near-missed putts back in the clubhouse after a fun day on the course. A big thank-you to UniCote for the help with sponsorship. Our dedicated customers and suppliers also collectively raised \$1000 for the Leukemia Foundation at our Charity Golf Hole, helping to shape the future for Australian's with blood cancer.

STAFF NEWS

Steve Marlow's 10th Anniversary

Congratulations to Steve Marlow, Delta Panels Sales Manager, on his 10 years of service. Steve's contribution has been a major factor in Delta's growth over the last decade. We all look forward to many more successful years ahead.

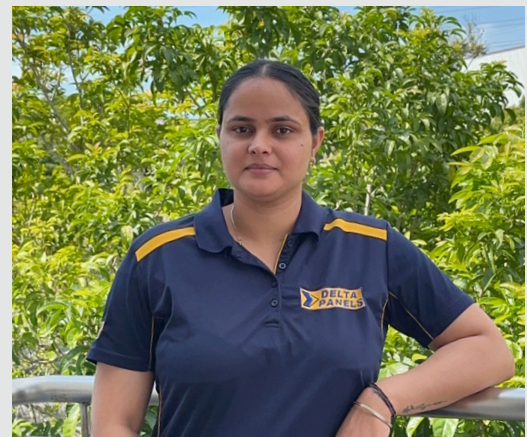

Zac Mantann Operations Manager

Zac Mantann has recently joined Delta Metal Products as the Operations Manager. Zac has a wealth of experience in the sheet metal industry and we are delighted to have him managing the expanding team in the Metal Products division.

Zac spends his time outside of work with his family and in particular at his daughter's dancing.

Amandeep Kaur Accounts Assistant

Amandeep is the latest member to have joined our Accounting Department. Amandeep has completed her Masters of Professional Accounting in 2018.

Amandeep is family oriented, and she loves to spend her free time with her family and friends.

Since our incorporation in 2010, Delta Panels has grown into the largest Australian Owned and Operated Panel manufacturing company. We are indebted to all our staff and customers that have been instrumental in our success. With new products and expanded operations forming part of our future growth plans, we look forward to many more years of continued success.
